

# TOWN OF WINHALL, VERMONT

## SOLID WASTE IMPLEMENTATION PLAN

Adopted: December 16, 2020

By the Winhall Select Board:

Julie Isaacs, Chair

E. Stuart Coleman, Vice Chair

William Schwartz, Member

# Solid Waste Implementation Plan ~ Town of Winhall

---

## Demographics

According to the 2010 US Census, the Town of Winhall population is 763 within a 44 square mile area. There are a total of 1,722 housing units within the Town of Winhall; 340 full-time occupied housing units, 1,332 seasonal use housing units, and 50 vacant or for rent housing units. The Town of Winhall is located within Bennington County and is shown in red on the map below. It lies adjacent to Stratton Mountain ski area and is home to numerous housing developments.

## Ordinances

The Town of Winhall has an ordinance regulating solid waste and recycling is mandatory. The ordinance is attached to this SWIP.

## Haulers Operating in Winhall

The following haulers are operating in Winhall and those utilizing the Winhall Transfer Station are noted below with an asterisk. There are numerous other caretakers that haul solid waste and recyclables that may or may not utilize the Winhall Transfer Station. Many caretakers contract with Casella for roll-off service.

Steve Avison Caretaking \*

P.O. Box 189, Bondville, VT 05340

(802) 297-2727 [avisonvt@sover.net](mailto:avisonvt@sover.net)

Provides caretaking services including solid waste and recycling pick-up.

Casella Waste Management

442 Clarendon Ave., West Rutland, VT 05777

(802) 772-6980 [Randall.Dapron@casella.com](mailto:Randall.Dapron@casella.com)

Provides curbside pick-up and roll-off service.

Contracts with the Town of Winhall for solid waste and recycling hauling from the Transfer Station.

## Facilities Included in this Plan

The Winhall Transfer Station, which is owned and operated by the Town of Winhall, is included in this Solid Waste Implementation Plan. Additionally, the Stratton/Winhall Fire District No. 1 is included in this SWIP as a private biosolids/septage facility serving select residents on that wastewater system. The Town of Winhall Transfer Station is a permitted facility. Users must show their permit to enter and dispose of materials, with the exception of e-waste (accepted from all Vermont residents).

The Winhall Transfer Station currently accepts municipal solid waste, as well as:

- |                             |                              |               |
|-----------------------------|------------------------------|---------------|
| ~ Cardboard, boxboard       | ~ Co-Mingled Paper           | ~ White Goods |
| ~ Paper bags                | ~ Plastic containers (all)   | ~ Tires       |
| ~ Glass containers          | ~ Scrap metal, aluminum, tin | ~ Clean Wood  |
| ~ Electronics               | ~ Compostable food scraps    | ~ Textiles    |
| ~ Leaves and lawn clippings | ~ Mercury Thermostats        |               |

## Disposal Rate

Utilizing ReTRAC data for the waste collected at the Winhall Transfer Station, and utilizing current US Census data for housing units, the following calculation can be made:

Total Tons of Waste (incl. C&D) Collected in 2019 = 333.14 Total Tons of Waste Generated

Multiplied by 2,000 (pounds per ton) = 666,280 Total Pounds of Waste Generated

Year-Round Occupied Housing Units of 340  
+ PLUS Seasonal Use (50% time) Housing Units of 1,332  
equals Total Estimated Full-Time Housing Units of 1,006

Divided by Total Estimated FT Housing Units (1,006) = 662.31 Pounds Per Housing Unit Per Year

Divided by 365 Days = 1.81 Pounds Generated Per Housing Unit Per Day

Divided by 2.5 People (estimated) per Housing Unit = 0.73 Pounds Generated Per Person Per Day

## Recycling Rate

Utilizing ReTRAC data for the waste and recycling collected at the Winhall Transfer Station, the following calculation can be made:

Total Tons of Waste (includes C&D) Collected in 2019 = 333.14 Tons

Total Tons of Recyclables Collected in 2019 = 164.23 Tons

Total Amount Collected = 497.37 Tons

Recycling Rate (as percentage of total) = 33%

<b>Name of SWME</b>	<b>Town of Winhall</b>
<b>Year Chartered (if applicable)</b>	N/A
<b>Mission for Sustainable Materials Management</b>	The Town of Winhall promotes recycling and proper disposal of all wastes, encouraging reuse of materials through a Swap Shop, electronics recycling through a state e-waste collection program, and composting through an organics recycling collection program. Programs are in place for textile recycling, tire recycling, compost bin sales, battery recycling, and mercury thermostat collection.
<b>Names of Member Town(s)</b>	Town of Winhall
<input type="checkbox"/>	<b>Attach cover page once SWIP has been pre-approved with title and date adopted by SWME.</b>

## General

<b>G1</b>	<p><b>Disposal and Diversion Reporting.</b></p> <ol style="list-style-type: none"> <li><b>DISPOSAL RATE:</b> To track progress with state waste reduction goals, SWMEs must report their disposal rate in SWIP years one and five. SWMEs may use the method in the <i>ANR Data Guidance</i> to calculate their disposal rate or another method approved by ANR. Disposal rate reports must be based on calendar year data and be submitted to ANR via ReTRAC by July 1<sup>st</sup>. <b>DOCUMENTATION (only required in annual SWIP reports):</b> <ol style="list-style-type: none"> <li>First (1<sup>st</sup>) Year SWIP Report: report year 1 annual per person per year disposal rate.</li> <li>Fifth (5<sup>th</sup>) Year SWIP Report: report year 5 annual per person per year disposal rate.</li> </ol> </li> <li><b>DIVERSION RATE:</b> SWMEs are not required to report diversion rates to ANR; however, it is strongly recommended that SWMEs track their diversion efforts to determine the success of their programs and services.</li> </ol>
<b>Plan to submit data:</b>	The Town of Winhall will follow ANR Guidance for data tracking by using the ReTRAC database. Data will be reported annually to VT ANR by July 1 of the respective years. In 2019, the Disposal Rate was 0.73 pounds of waste per person per day or 266.45 pounds per person per year.

<b>G2</b>	<p><b>SWIP Posting &amp; Publicity.</b> To ensure community members are aware of and can access the SWIP, each SWME must—within one month of their SWIP approval—<b>post their approved SWIP</b> on their website and <b>submit one press release</b> about their SWIP to local newspapers within two months of SWIP approval.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>First (1<sup>st</sup>) Year SWIP Report: supply website link of SWIP and attach press release along with date released and list of newspapers where it was sent.</li> </ol>
<b>Plan for Posting and Press Release:</b>	The SWIP will be posted on the Town website at: <a href="http://www.winhall.org">www.winhall.org</a> within one month of approval, on the Transfer Station page, located at: <a href="http://www.winhall.org/?p=Transfer_Station">http://www.winhall.org/?p=Transfer_Station</a> . An article or announcement introducing the SWIP and the website where it will be available for download will be published within two months of approval in the Vermont News Guide (the Town’s newspaper of record).

<b>G3</b>	<p><b>A-Z Waste &amp; Recycling Guide.</b> To ensure community members have access to local information on state disposal bans and how to reuse, recycle, donate, compost, and safely dispose of their unwanted materials, each SWME will develop and maintain an A-Z guide on their website that lists regional management options for various materials. This guide must be updated on the SWMEs website within the first SWIP year and remain accurate throughout the SWIP term. The list must contain, at minimum, information on how to manage, recycle, or divert all <a href="#">state disposal</a> banned items in addition to information on where to recycle/reuse the following materials: clothing/textiles, asphalt shingles and drywall, sharps, pharmaceuticals, and food for donation.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. Provide A-Z website link in annual SWIP report.</li> <li>2. A-Z website link must be easily found from the district, alliance or town’s website within 2 clicks or fewer from the homepage.</li> <li>3. Publicize the A-Z Waste &amp; Recycling Guide with at least two forms of outreach annually throughout the SWIP term.</li> </ol>
<b>Plan for Updating Webpage:</b>	<p>The Transfer Station page of the Town of Winhall website will be utilized for distributing information on how to dispose of and recycle various materials. The page is located at: <a href="http://www.winhall.org/?p=Transfer_Station">http://www.winhall.org/?p=Transfer_Station</a> . This page is available within one click from the homepage. Disposal options will be available in an A-Z format (following the State A-Z Guide) on the website and updated at least quarterly, and any missing items will be included in the A-Z list by the end of SWIP Year 1.</p>
<b>Plan for Publicity:</b>	<p>The A-Z Guide will be publicized using methods to include word-of-mouth, email, website links, and discussions during public meetings.</p>

<b>G4</b>	<p><b>Variable Rate Pricing.</b> SWMEs must implement a variable rate pricing system that charges for the collection of municipal solid waste from a residential customer for disposal based on the volume or weight of the waste collected.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. In annual SWIP report, explain the method used to ensure haulers and facilities are charging residents for trash based on volume or weight.</li> </ol>
<b>Description of System:</b>	<p>On July 1, 2015, the Town of Winhall implemented a Pay as You Throw variable rate pricing system for residents and caretakers operating in the Town.</p> <p>Since Winhall has a substantial number of second homes, there are numerous caretakers operating in Town. A form to “license” the haulers operating in Town was created and distributed, and is available on the Town’s website. Such form requires that haulers explain how they intend to comply with the new rules. An informational brochure was also created and distributed to residents and posted on the Town’s website about the new pricing structure, and residents are educated at the Transfer Station by attendants.</p> <p>Residents are required to purchase special bags for their solid waste; the price is \$1.50 per 15-gallon bag and \$3.00 per 30-gallon bag. See attachments for details.</p> <p>There is no charge for recyclables, food scraps, or electronic waste. Electronic waste is accepted from everyone, though the recycling, swap shop, organics, and solid waste collection is only available to Winhall residents. A permit is required to access the Transfer Station.</p>

<b>G5</b>	<p><b>Solid Waste Hauling Services.</b> To ensure community members have access to information on solid waste hauling services in their region or town, SWMEs <b>must annually update the contact information and trash, recycling, and food scrap pickup services offered by all commercial solid waste haulers operating within their region</b> on the SWME website. SWMEs may elect to establish licensing or registration programs to accomplish this requirement.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. In annual SWIP report, provide website link to hauler contact list and services haulers provide.</li> </ol>
<b>Description of Updating Process:</b>	The Town of Winhall will annually review and update the contact information for haulers and service providers on the Town’s website at <a href="http://www.winhall.org">www.winhall.org</a> .

### Outreach – Recycling, Organics, HHW/CEG, EPR Programs

<b>O1</b>	<p><b>School Outreach.</b> To ensure all K-12 public and private school children, faculty and staff understand state disposal bans and how to reduce waste, reuse, recycle, compost, donate, and safely manage materials responsibly, <b>SWMEs must annually visit and work with K-12 public and private schools to implement school-wide waste reduction programs — covering, at minimum, disposal ban information, how to recycle correctly, how to separate food scraps for composting, how to reduce wasted food and donate what is appropriate, how to safely manage hazardous waste, and collection options available from Vermont’s Extended Producer Responsibility Programs for electronics, paint, batteries, mercury-containing bulbs and thermostats.</b> SWMEs must assist schools on a continual basis to ensure the effectiveness of waste reduction programs.</p> <p>SWMEs must conduct in-person outreach and education assistance to at least 10% or 2 schools (whichever is greater) within their jurisdiction each year, ensuring that at least 50% of the schools are reached by the end of the SWIP term. SWMEs should prioritize outreach to schools that have not yet been visited. For SWMEs with fewer than 10 schools, assistance should be offered on an annual basis to at least 2 schools per year, with re-visits to schools if all schools in the jurisdiction are reached early in the SWIP term.</p> <p>SWMEs may work with ANR’s Environmental Assistance Office to obtain information and technical assistance on HHW/CEG handling, disposal, waste reduction, recycling, and finding cost effective disposal options.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. Provide a list of schools contacted, dates visited, informational materials provided (such as VT Waste Not Guide), technical assistance or outreach offered, and status of recycling and food scrap diversion programs in annual SWIP report.</li> </ol>
<b>Description of Outreach Plan:</b>	The Town of Winhall will work cooperatively with the independent school in Town, the Mountain School at Winhall, annually throughout the course of the SWIP term. Resources and information on recycling, organics, and hazardous waste will be provided to the school. The school will be encouraged to promote recycling of containers, paper, and cardboard, and dispose of hazardous wastes properly. Since there is no cafeteria at the school, outreach to the school may include assistance with small-scale composting of school lunch waste, if appropriate.

<p><b>02</b></p>	<p><b>Direct Business Outreach.</b> To ensure businesses and institutions (hospitals, nursing homes, colleges, correctional facilities, and other large waste generators) understand how to meet State requirements and reduce waste, recycle, compost, donate food/goods, and safely manage materials responsibly, <b>SWMEs must annually conduct business outreach and education either in person or via phone — covering, at minimum, disposal ban information, how to recycle correctly, how to separate food scraps for composting, how to reduce wasted food, how to safely manage hazardous waste, and collection options available from Vermont’s Extended Producer Responsibility Programs for electronics, paint, batteries, mercury containing bulbs and thermostats.</b> SWMEs must provide business outreach and education on a continual basis to ensure the effectiveness of waste reduction programs.</p> <p>SWMEs must conduct business outreach and education to at least 2% or 20 businesses/institutions (whichever is greater) within their jurisdiction each year and reach at least 10% of the businesses and institutions within their region by the end of the SWIP term. For SWMEs with fewer than 20 businesses, all businesses must receive outreach at least twice during the SWIP term.</p> <p>SWMEs should prioritize outreach to businesses that have not yet been contacted or visited or those whose status is not yet known.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. In annual SWIP report, provide list of businesses/institutions contacted, date contacted, outreach materials provided (such as the VT Waste Not Guide), and the status of recycling and food scrap diversion programs and whether follow up is needed.</li> </ol>
<p><b>Description of Outreach Plan:</b></p>	<p>Outreach in the form of educational materials about recycling, hazardous wastes, and composting will be conducted to businesses in Winhall. This will be done via electronic means, in-person meetings, telephone calls, and direct mailing, as per their preferences. This will also be posted on the Town website. The estimated number of businesses in Winhall is 20 or fewer; therefore all businesses will be provided with information at least twice during the SWIP term about disposal bans, recycling, composting, food waste reduction, hazardous waste, and collection options for paint, batteries, electronics, and mercury-containing items. As required, the status of business recycling and food scrap diversion programs will be reported and follow-up provided as needed.</p>

<p><b>03</b></p>	<p><b>Waste Reduction at Events.</b> To ensure community members have resources to reduce waste, recycle, and divert food scraps from the trash at events, SWMEs must, <u>at minimum</u>, offer technical assistance which could include signage and coordination with local haulers and facilities accepting food scraps. Though not required, SWMEs are encouraged to host waste-sorting stations at events with SWME staff or volunteers or to loan community members basic supplies such as signage and collection bins.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. Provide information on SWME or town website of event waste reduction and diversion resources and services and provide link in annual SWIP report.</li> <li>2. In annual SWIP report, list events that have received assistance each year.</li> </ol>
<p><b>Description of Assistance:</b></p>	<p>The Winhall website (<a href="https://www.winhall.org/?p=Solid_Waste_Info">https://www.winhall.org/?p=Solid_Waste_Info</a>) will include information on waste reduction at public and private events, with suggestions for how to recycle/reduce, sort, compost, etc. Additionally, the Town of Winhall participates in a compost bin program, through which the Town purchases compost bins in bulk to sell at reduced prices to residents and businesses.</p>

## HHW & CEG Hazardous Waste

<p><b>H1</b></p>	<p><b>HHW Collection Events and Facilities.</b> To ensure community members have convenient access to safely dispose of Household Hazardous Waste (HHW) and Conditionally Exempt Generator Hazardous Waste (CEG), SWMEs must provide a minimum of two (2) HHW/CEG hazardous waste collection events per year or access to a permanent HHW collection facility defined within this MMP as a facility that is open at least one day per week and open at minimum from May through October (ANR may consider approving requests for alternative operating days and seasonal openings and closures of permanent facilities when necessary). SWMEs that provide access to a permanent HHW collection facility in their region, are exempt from the requirement to offer all towns at least one annual collection event within 20 road-miles.</p> <p><b>Minimum Requirements for SWMEs utilizing Collection Events:</b> SWMEs must offer at least one event scheduled in the spring and one in the fall and events must operate for a minimum of 4 hours. SWMEs who only offer collection events or operate HHW facilities with operating hours similar to collection events must <u>annually</u> provide each of its towns with access to at least one collection event (or to a facility) within 20 road-miles; meaning a maximum distance of 20 road-miles from any point in the town. If a SWME provides additional events above the minimum requirement, waivers to the minimum duration for each event may be considered by ANR. To meet this 20 road-mile convenience requirement, certain regions may need to add collection events.</p> <p>SWMEs may share access to events and facilities provided a signed agreement confirming access by the SWME’s community members is obtained; and provided that an event or facility is within 20 road-miles from any point in a town that would be using that event or facility.</p> <p>In the event an EPR Program is established for certain HHW materials, SWMEs would be required to ensure that collection exists for all <u>other HHW materials not covered</u> by the HHW EPR Program and to meet and maintain the above HHW collection and convenience standards.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. In annual SWIP report, provide dates of events or link to facility hours on SWME website, number of participants and the amount of HHW/CEG hazardous waste collected.</li> </ol>
<p><b>Description of Collection Plan:</b></p>	<p>Annually, per State regulations, the Town of Winhall will provide its residents and CEGs with two (2) HHW/CEG collection events at the Winhall Transfer Station for a minimum of four (4) hours each; one event will be held in the spring and one in the fall. Funding for such events will be provided through Town tax revenues, and applications for grant assistance to the State will be made to offset costs. Reporting shall occur annually through ReTRAC.</p>

<p><b>H2</b></p>	<p><b>Collection of Landfill-Banned and Dangerous Materials.</b> Each SWME shall demonstrate that year-round collection options exist in their region for the following materials: <b>batteries, mercury containing lamps, mercury thermostats, 1- and 20-pound propane tanks, electronics, paint, tires, used oil, and white goods (including discarded refrigerators, washing machines, clothes dryers, ranges, water heaters, dishwasher, freezers)</b>. Collection locations can be privately or publicly owned, such as auto parts stores collecting used oil, or hardware stores collecting paint and fluorescent lamps. However, if the only collection location for a required material closes during the SWIP term, then the SWME must provide a collection option for its residents. All collection locations must be open at least one weekday and one weekend day per week. In addition, all outreach promoting the collection of these materials must make clear that the collection of these materials is separate from curbside, or blue-bin, recycling.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. In annual SWIP report, provide link to SWME's A-Z Guide's listings with name, location, phone number, and website (if available) of the locations, by material type.</li> </ol>
<p><b>Plan for Updating Collection Locations:</b></p>	<p>Year round collection options exist for the following materials at the following locations. This list will be provided in the A-Z Guide on the Town's website and updated annually. Outreach will indicate that these materials are separate from blue-bin recyclables.</p> <p>Batteries: Collected at the Winhall Transfer Station.</p> <p>Fluorescent Lamps: Collected at Londonderry Hardware Store, R. K. Miles Inc. in Manchester, Sigda in South Londonderry.</p> <p>Mercury Thermostats: Collected at the Winhall Transfer Station, FW Webb stores.</p> <p>1- and 20-Pound Propane Tanks: Collected at the Winhall Transfer Station, provided a hole is made and all propane drained.</p> <p>Electronics: The Winhall Transfer Station is a collection site that accepts e-waste from all Vermont residents.</p> <p>Paint: Collected at R.K. Miles, Inc. in Manchester, Sherwin Williams in Manchester, and other locations. Residents are directed to PaintCare listing.</p> <p>Tires: Collected at the Winhall Transfer Station.</p> <p>Used Oil: Collected at Londonderry Auto, Hunter Excavating in So. Londonderry, Advance Auto stores.</p> <p>White Goods: Collected at the Winhall Transfer Station.</p> <p>Pharmaceuticals: Collected at the Winhall Police Department in a locked drop-box with 24/7 access for drop-offs.</p>

## Food Donation

<p><b>F1</b></p>	<p><b>Food Rescue.</b> To ensure community awareness of food donation centers, SWMEs must, at minimum, list food donation groups on their website (this can be part of the A-Z Guide). SWMEs should contact and collaborate with local food redistribution groups to conduct outreach and education to food businesses and institutions about opportunities to donate quality food within the region to feed people. Related groups include Vermont Foodbank, hunger councils, food shelves, churches, schools, and other nonprofit and community organizations that accept and distribute donated food items.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. In annual SWIP report, provide link to SWME’s A-Z Guide’s food donation listing, with name, location, phone number, and website (if available) of the food donation centers.</li> </ol>
<p><b>Plan for Updating Website:</b></p>	<p>Currently, there is one food donation center in Winhall, which is supported by the Town of Winhall through an exterior food pantry site located on Town property at the Town Offices at 115 Vermont Route 30 for “help yourself” access. This information will be included in the A-Z Guide and updated annually.</p>

## Textiles

<p><b>T1</b></p>	<p><b>Textile Reuse and Recycling.</b> To ensure community members have access to textile reuse and recycling centers where used clothing can be donated, SWMEs must <b>annually ensure that at least one collection location exists within their region.</b> Textile reuse/recycling locations can be either privately or publicly owned. However, if the only collection location closes or ceases collection during the SWIP term, then the SWME is responsible for providing a collection option for its residents or partnering with another group that may coordinate an annual drop and swap event. Collection <b>locations can also be shared amongst SWMEs</b> so long as the facility is within the same county or SWME region. SWMEs must <b>list where to donate and reuse/recycle “clothing/textiles” in their A-Z Guides.</b></p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. In annual SWIP report, provide link to SWME’s A-Z Guide’s textiles reuse and recycling listing with name, location, phone number, and website (if available) of the textile reuse and recycling center.</li> </ol>
<p><b>Plan for Ensuring Collection Exists:</b></p>	<p>The Winhall Transfer Station houses a textile collection bin for the collection of textiles for reuse/recycling utilizing a third party vendor. This information will be included in the A-Z Guide and updated as necessary.</p>

## Construction & Demolition (C&D)

<b>C1</b>	<p><b>Leaf, Yard, and Clean Wood Debris Recycling.</b> To ensure community members have options to recycle leaf, yard, and clean wood debris that are banned from landfill disposal, SWMEs must <b>annually ensure that at least one leaf, yard, and clean wood recycling collection location exists within their jurisdiction.</b> This location can be either privately or publicly owned; however, if the only collection location closes or ceases collection during the SWIP term, then the SWME must provide a collection option for its community members. SWMEs <b>must list where to drop off clean wood in their A-Z Guides.</b> Recycling options can include dimensional lumber that is reused, clean wood that is burned to produce heat and/or power for buildings (including wood stoves), clean wood that is chipped to create mulch or compost feedstocks, and other options listed in the state’s <a href="#">Leaf, Yard, and Clean Wood Debris Guide</a>. Collection locations should be co-located with solid waste facilities that collect C&amp;D and trash to make clean wood recycling convenient.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"><li>1. In annual SWIP report, provide link to SWME’s A-Z Guide’s clean wood recycling listing with name, location, phone number, and website (if available) of the collection location.</li></ol>
<b>Plan for Ensuring Collection Exists:</b>	The Winhall Transfer Station houses a collection site for clean wood, leaf, and yard debris. Clean lumber may be reused by others in the form of a “Swap”, and debris is burned in the Town-owned burn pit on Town property. The A-Z Guide on the website will be updated annually with this information.

<p><b>C2</b></p>	<p><b>Asphalt Shingles and Drywall Recycling.</b></p> <p><b>Asphalt Shingles Recycling:</b> To ensure community members have options to recycle asphalt shingles, SWMEs <b>must ensure that at least one recycling collection location exists within their region.</b> Collection locations can be privately or publicly owned. However, if the only recycling collection location closes during the SWIP term, then the SWME must provide a collection option. Collection locations may be shared amongst SWMEs. ANR may suspend this requirement upon finding that insufficient markets exist for these materials.</p> <p><b>Clean Drywall Recycling:</b> To promote the recycling of clean drywall, <b>SWMEs must list where to drop off clean drywall for recycling in their A-Z Guides (even if drywall recycling collection locations are outside of the SWME region).</b> To encourage development of options for drywall recycling collection, SWMEs must contact drywall recycling collectors once during the SWIP term to determine costs for obtaining drywall recycling collection services in their region.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. In annual SWIP report, provide link to SWME’s A-Z Guide’s asphalt shingles and drywall recycling listing with name, location, phone number, and website (if available) of these recycling collection locations.</li> <li>2. Fifth (5<sup>th</sup>) Year SWIP Report: describe contact made to drywall recyclers for costs for recycling option.</li> </ol>
<p><b>Plan for Ensuring Collection Exists:</b></p>	<p>Since the Town of Winhall is in a remote, mountainous area, there does not currently exist an asphalt shingle or drywall recycling center within twenty (20) miles. The following is the list of current shingle and drywall processors that the Town of Winhall will contact to discuss costs and options. The Town will pursue options for establishing an asphalt shingle collection location in the region, potentially working with neighboring SWMEs, during the SWIP term.</p> <p>Asphalt Shingle Recyclers/Processors:</p> <ul style="list-style-type: none"> <li>• Casella Waste Management, All Cycle Transfer Station</li> <li>• Myers Container Service, Winooski C&amp;D Recycling Facility</li> <li>• (Potentially) TAM Waste Management, Pownal Facility</li> <li>• Patriot Recycling Corporation, Raynham, MA</li> <li>• Roof Top Recycling, Boxborough, MA</li> </ul> <p>Drywall Recyclers/Processors:</p> <ul style="list-style-type: none"> <li>• Myers Container Service, Colchester C&amp;D Recycling Facility</li> <li>• USA Gypsum, currently hauling out of Chittenden County to PA facility</li> </ul>

## Residuals – Biosolids, Wood Ash, Short Paper Fiber

<p><b>R1</b></p>	<p><b>Residuals Recycling Meetings.</b> To promote the recycling of residual materials, each SWME must <b>attend and help ANR Residuals Program staff host and coordinate at least one regional public meeting on residuals recycling during the SWIP term.</b> ANR Residuals Program staff will help SWMEs organize the meetings, give a presentation, and identify speakers and invitees. SWMEs must reserve a space to hold the meetings and send invitations to water/wastewater and public works employees, town managers, select board members, septic and biosolids service providers, citizens, industrial waste generators, and others as appropriate. ANR Residuals Program staff will collaborate with SWMEs to develop a meeting agenda that best suits the needs or issues of the region and its towns. Meeting agendas could cover the benefits and challenges of recycling biosolids and other residual materials, like stabilized septage, wood ash, and short paper fibers, as well as education campaigns for the public on residual materials and keeping non-flushables and toxics out of the wastewater stream and septic systems.</p> <p><b>DOCUMENTATION (only required in annual SWIP reports):</b></p> <ol style="list-style-type: none"> <li>1. Collaborate with Residuals staff to host/coordinate regional public meeting on residuals recycling.</li> <li>2. Report date of meeting and list of attendees in 5<sup>th</sup> year SWIP report.</li> </ol>
<p><b>Plan for Assisting with Meeting Coordination:</b></p>	<p>The Town of Winhall will collaborate with ANR Staff to hold one regional public meeting on residuals recycling within the SWIP term. This meeting may occur outside of the Town of Winhall in a Town with a greater number of businesses, septic service providers, and wastewater services. As appropriate, the Town will assist with reserving space, inviting attendees, developing an agenda, and reporting on the meeting in Year 5.</p>

## Additional SWIP Requirements

<b>Solid Waste Facility Siting Criteria</b>	Describe siting criteria that will apply to solid waste facilities which may be proposed by any public or private entity in the SWME region. Siting criteria shall not be less stringent than the criteria in Vermont Solid Waste Management Rules.
<b>Description:</b>	<p>New facilities, which are those not listed in this SWIP, would be required to be added to the SWIP via a plan amendment. That process would need to be completed before a facility can be certified or categorically certified by the Vermont Agency of Natural Resources. Application for certification and for inclusion in this plan may be done concurrently.</p> <p>A public or private entity desiring to operate a solid waste facility in the Town of Winhall shall submit a letter to the Select Board requesting that its facility be included in this Solid Waste Implementation Plan. A copy of the entity's completed application for a Vermont Solid Waste Management Facility Certification or Categorical Certification must be submitted to the State along with copies of local, state, or federal approval applications and any additional information required to sufficiently document satisfaction of the siting criteria specified above shall be submitted with the letter.</p> <p>The facility shall:</p> <ol style="list-style-type: none"> <li>1. Conform to any and all local, regional, state, or federal rules, regulations and permitting requirements.</li> <li>2. Would meet the siting requirements of the Vermont Solid Waste Management Rules.</li> <li>3. Not occur within 100 feet of any wetland, vernal pool, or waterbody, or within a Special Flood Hazard Area or River Corridor.</li> <li>4. Not occur on slopes greater than 15%, or within 100 feet of either a surface or groundwater protection area without permit approval from the Vermont Agency of Natural Resources.</li> <li>5. Have direct access to a state or town road with weight limits sufficient for vehicular traffic that will serve the facility.</li> <li>6. Receive support from and/or incorporate any changes recommended by the Town of Winhall during review for potential substantial impact or through Act 250 review.</li> </ol> <p>To be included in this SWIP, the facility would need to be approved by majority vote of the Winhall Select Board at a duly warned meeting of the Select Board. The Select Board may hold one or more public hearings on the proposed facility.</p> <p>If a town joins the Town of Winhall SWIP after adoption of this SWIP, the solid waste facilities of that town are not automatically included in this SWIP, and will be approved on a case-by-case basis by the Winhall Select Board. The Town of Winhall will notify the State of any facility that is included in the SWIP after completion of the process described in this section.</p> <p>A facility continues to be included in the SWIP as long as it remains in compliance with all local, state, and federal laws, rules, regulations, and ordinances. If an amendment or renewal of the Vermont Solid Waste Management Facility Certification for a facility included in this SWIP includes significant changes in the materials accepted, the process used to manage the materials, or the annual tonnages allowed to be managed by the facility, the owners/operators of the facility shall follow the procedures specified in this section to be included in this SWIP.</p>

<b>Specify Facilities Included in SWIP &amp; How Proposed Facilities Will Be Reviewed</b>	Explain the process and standards to be used to determine if newly proposed solid waste facilities would be included in the SWIP. The process may reference siting criteria and existing zoning ordinances, may require a host town agreement, or may defer to requirements in the Vermont Solid Waste Management Rules for some or all types of solid waste facilities. The standard(s) for being included in the SWIP should be clear. Under State law (10 V.S.A. §6605(c)), the Agency shall not issue a certification or recertification for a solid waste facility (except for a sludge or septage land application project) unless it is included in the municipal solid waste implementation plan. <i>Note: The plan should also include any known solid waste landfills which have been closed since 1989 so that they can receive post-closure certifications.</i>
<b>Facilities and Process:</b>	The Winhall Transfer Station is included in this SWIP. All other proposed solid waste facilities must adhere to Siting Criteria above and local zoning ordinances.

<b>Public Participation in the SWIP Approval Process</b>	Describe the process to be used to ensure public participation in the development and implementation of the SWIP. The local community should be notified of opportunities to participate in the SWIP development and implementation. In accordance with state statute, SWMEs must hold at least two public meetings on the draft SWIP.
<b>Description of Process:</b>	At least two public meetings will be held as part of regularly scheduled Select Board meetings to introduce and discuss the Solid Waste Implementation Plan during drafting. Continued public meetings are planned, and the draft SWIP will be posted on the Town website and noticed in the monthly Town newsletter. Notice will be made when the SWIP is approved and the final SWIP will be published. Documentation of public input and meetings will be provided upon request by ANR and minutes will be available on the Town's website.

<b>Ordinances</b>	Include copies of any solid waste related ordinances with the SWIP.
<b>Copies of Ordinances:</b>	See attached.

<b>Conformance with Other Plans</b>	Demonstrate that the SWIP is in conformance with any regional plan adopted in accordance with 24 V.S.A Chapter 117. Demonstration may be in the form of a letter from the applicable regional planning commission regarding conformance of the solid waste implementation plan with the regional plan(s), copies of pertinent sections of the regional plan(s), or other documentation that proves conformance.
<b>Letter or other Documentation:</b>	This Solid Waste Implementation Plan is in conformance with the Windham Regional Plan, adopted September 30, 2014, and the Winhall Town Plan, adopted November 2, 2016, with the exception that the Town of Winhall is listed in both Plans as being a member of the Windham Solid Waste Management District. It has since withdrawn from the District.

October 13, 2020

Lissa Stark  
Town Administrator  
Town of Winhall, VT

RE: Town of Winhall Solid Waste Implementation Plan

Dear Ms. Stark:

I am writing on behalf of the Windham Regional Commission to confirm that the Town of Winhall's Solid Waste Implementation Plan is consistent with the Windham Regional Plan, adopted September 30, 2014. The only change is that the Town of Winhall is no longer a member of the Windham Solid Waste Management District. Otherwise the Solid Waste Implementation Plan is consistent with WRC's policies.

Let me know if you need additional information or have any questions.

Sincerely,

A handwritten signature in blue ink, which appears to read "Susan Westa". The signature is fluid and cursive.

Dear Winhall Homeowners, Residents, and Business Owners:

As the costs of trash/garbage removal continue to grow, the Winhall Select Board has taken a number of steps to reduce expenses, as well as improve both the efficiency and effectiveness of the Transfer Station.

1. To meet the Town's recycling requirements, the Town of Winhall has joined the Windham Solid Waste Management District. There are now two new recycling bins at the Transfer Station, one for containers and one for fiber materials (see below for definitions). This will make recycling simpler and, additionally, lower the cost to the Town for removal of recyclables. The Select Board will begin a mandatory recycling program on January 1, 2002. All recyclable items must be separated from the trash that goes into the compactors and deposited into the appropriate bin(s).
2. All other trash that is placed in the garbage compactor must be in clear plastic bags. The transfer station attendant will visually inspect the clear bags disposed of in the compactor for adherence to the recycling requirements. These clear plastic bags can be purchased at local stores or at the Transfer Station.
3. New Transfer Station Permits will be issued at the Town Hall starting on January 2, 2002 9am - 12 noon, Monday - Thursday, at no charge to property owners and residents. To obtain a permit, the applicant's name must appear on the grand list or voter registration list. Only 1 permit per residence will be issued. The description of the various permits and definition of terms to be applied to this program are given below and will be printed on the back of the permit as well.

4. Hours of Operation:

Effective January 1, 2002 the Transfer Station hours of operation will be as follows:

Monday, Tuesday and Friday	8:00 AM - 4:00 PM
Saturday	9:00 AM - 4:00 PM
Sunday	1:00 PM - 6:00 PM
Wednesday and Thursday	Closed

Town of Winhall  
PO Box 420  
Bondville, Vt. 05340

PERMITS

Residential Permits Permits will be issued to Winhall homeowners and residents only, one permit per property. If a permit is lost, another permit will be issued at a cost of \$25.00 and the original permit will become void. The permit will allow the homeowner/resident access to the Winhall Transfer Station for the purpose of disposal of garbage, recyclables, bulk items and trash as defined below.

Vacation Rental Permits A vacation renter of a Winhall home may obtain a "Vacation Rental Permit," at a cost of \$5.00. This will allow the renter to dispose of 3 bags of garbage and trash (33 gallon maximum capacity), recyclables at no charge, and bulk items as per fee schedule. All fees to the Transfer Station must be made by check and made out to the Town of Winhall.

Residential Caretaker Permit Caretakers who collect refuse from Winhall residents will be issued a permit for each vehicle that is used for refuse hauling. If a permit is lost, another permit will be issued at a cost of \$25.00 and the original permit will become void. The permit will allow access to the Winhall Transfer Station for the purpose of disposal of garbage, recyclables, bulk items and trash, as defined below, that has been collected from Winhall residences only. Transfer Station personnel may, at their discretion, require an inspection to insure that all refuse comes from Winhall homes rather than those of surrounding towns. Refuse that exceeds the height of the sides of the truck must be covered to prevent loss during transit.

Commercial Use Permit *the following* Commercial establishments (restaurants, convenience stores, motel/hotels, ~~etc.~~) will be allowed to dispose of **ONLY RECYCLABLE** trash after January 1, 2002. It is the responsibility of the commercial establishment for the disposal of garbage and trash.

Violation of the towns recycling requirements and/or permit conditions may result in loss of transfer station permit privileges.

Definitions

- Refuse Garbage, Trash, Recyclables, and Bulk Items, will be accepted at the Winhall Transfer Station by permit only. In the event of unusual circumstances, the acceptance of certain items may be temporarily suspended.
- Garbage Waste food and food products generally produced in a kitchen and their containers that are not recyclable. All garbage must be in clear plastic bags and may be co-mingled with trash.
- Trash Light bulbs, ceramics, Pyrex glass kitchen ware, any plastic containers without a neck, plastic wrappers, carbon paper, mailing packages, bubble wrap, Styrofoam, packaging, wet or dirty clothes and shoes. All trash must be in clear plastic bags and may be co-mingled with garbage.
- Recyclable
- Fiber Clean, dry, flattened corrugated cardboard, brown paper bags, all newsprint including glossy inserts, magazines, catalogs, junk mail, envelopes, file folders, paperback books, school & office paper.
- Container Clean tin, aluminum & tin cans, rinsed green, brown & clear glass bottles & containers, rinsed plastic containers with a neck.
- Returnable VT redeemable bottles and cans including liquor bottles.
- Bulk Items Appliances, batteries, fluorescent light bulbs, mattresses & box springs, bicycles, tires, bulk parts & metal.

Attendant must be present when disposing of bulk items. Fees to be paid by check made payable to the Town of Winhall. See fee schedule below.

Items not accepted at the Winhall Transfer Station

Construction debris, paint, stain, oil, oil filters, yard waste, anything labeled caustic, toxic, corrosive, poison, flammable or caution that are accepted at hazardous waste collection sites at specified times and locations during the year.

Your cooperation is appreciated. With all of us helping out, Winhall will be able to continue providing our Town with an excellent Transfer Station.

TOWN OF WINHALL  
CIVIL ORDINANCE  
REGULATING THE DISPOSAL OF SOLID WASTES

WHEREAS, the Town of Winhall has, by virtue of authority granted in 24 V.S.A. 1971 and 24 V.S.A. 2202a(a), the powers to adopt, amend, repeal, and enforce ordinances, and to manage and regulate solid waste disposal within its boundaries;

NOW, THEREFORE, to protect public health and safety and to promote the responsible use of resources and protection of the environment, the Selectboard of the Town of Winhall hereby adopts this ordinance to regulate the collection and disposal of solid waste in the Town of Winhall, Vermont.

ARTICLE I  
DEFINITIONS

- (1) "Acceptable Waste" means all household garbage, trash, rubbish, and refuse originating within the Town, or such other towns as approved by the Board of Selectmen, and shall not be deemed to include anything of value (as salvage, scrap, or recyclables) to any person in the form and at the location where it is generated, collected, or stored prior to collection;
- (2) "Authorization" means authorized pursuant to a permit, legal contract, or other written authorization entered into by the Town of Winhall and a private third person as defined herein;
- (3) "Bulky Items" means couches, furniture, mattresses, and other large items;
- (4) "Commercial hauler" means any person, business, or corporation who hauls materials to a transfer station, recycling facility, or landfill for others for a fee;
- (5) "Commercial Solid Waste" means any garbage, ~~trash,~~ rubbish, or refuse generated by normal business and institutional activities, within the Town, or such other towns as approved by the Board of Selectmen, and shall not be deemed to include anything of value (as salvage, scrap, or recyclables) to any person in the form and at the location where it is generated, collected, or stored prior to collection.
- (6) "Construction/Demolition Debris" means the refuse from the construction or demolition of any structure, but does not include any hazardous wastes or materials as defined by Vermont or Federal Statutes or Regulations;

- (7) "Facility" means a transfer station, recycling center, or any other solid waste management facility operated by or for the Town of Winhall;
- (8) "Hazardous waste" means waste that is identified as hazardous in, and regulated by, the Vermont Hazardous Waste Management Regulations including, but not limited to, waste that contains toxic, corrosive, reactive, explosive, or flammable ingredients;
- (9) "Industrial Waste" means any waste from any process or industry, manufacturing, trade, or business, but does not include any chemicals, oil, sludge, inflammable materials, or hazardous materials as defined by Vermont or Federal Statutes or Regulations;
- (10) "Junk Motor Vehicle" means any discarded, dismantled, wrecked, scrapped, or ruined motor vehicle;
- (11) "Natural wood" means any of the following, provided such material has not been chemically treated with preservatives, paint or oil:
- a) trees, including logs, boles, trunks, branches, limbs, and stumps;
  - b) lumber, including timber, logs, or slabs dressed for use;
  - c) pallets and skids.
- This definition does not include processed wood products such as plywood, particle board, fiber board, and press board.
- (12) "Nonresident property owner" means a person, business, or corporation who owns a residential structure or commercial structure or operation within the corporate limits of the Town of Winhall which is not their principal place of residence;
- (13) "Person" means any resident or nonresident property owner of the Town of Winhall or person, firm, partnership, association, corporation, company, or organization of any kind approved by the Board of Selectmen;
- (14) "Recyclables" means any recyclable material as specifically identified in regulations promulgated by the Board of Selectmen;

- (15) "Recycling Facility" means a facility operated by the Town, or another licensed entity, for the source separation of reusable or recyclable materials;
- (16) "Solid Waste" means any discarded garbage, refuse, and other discarded materials by normal residential, commercial, institutional and community activities which are destined for disposal, but does not include animal manure and absorbent bedding used for soil enrichment and shall not be deemed to include anything of value (as salvage, scrap, or recyclables) to any person in the form and at the location where it is generated, collected, or stored prior to collection;
- (17) "Solid Waste Facility" means any site or structure used for treating, storing, processing, recycling or disposing of solid waste which has been certified to receive solid waste by the Vermont Agency of Natural Resources under 10 V.S.A. Ch. 159. A facility may consist of a single or several treatment, storage, recycling, or disposal units;
- (18) "Transfer Station" means a facility operated by or for the Town for the central collection of solid waste and the subsequent transport of the waste to an approved disposal site;
- (19) "Yard Wastes" means grass, leaves, brush, trees, or any part thereof.

**ARTICLE II  
PERMITS REQUIRED**

- 1) The Town Transfer Station/Recycling Facility will be open for use by any authorized person as defined within this ordinance.
- 2) Admission to the facility will be only by permit issued by the Town, upon application by an appropriate person as described within this ordinance. All permits remain the property of the Town.
- 3) All persons, or businesses engaged in the commercial hauling of solid waste, must first obtain a permit from the Town after the payment of the appropriate fees approved and set by the Selectboard of the Town of Winhall.
- 4) Any person engaged in the hauling or disposal of commercial solid waste shall be subject to the requirements and fees as in section (3) of this article.

**ARTICLE III  
DISPOSAL OF MATERIALS**

- 1) All solid waste generated and collected within the Town shall be disposed of in a manner and at a location approved by the Board of Selectmen.
- 2) For the purposes of this ordinance, the Selectboard has designated the Town Transfer Station/Recycling Facility located on Old Town Road, in the Town of Winhall as the approved location for the disposal of solid waste. The Selectboard reserves the right to designate other approved locations from time to time.
- 3) Only solid waste generated and collected within the limits of the Town of Winhall, or such other towns as approved by the Board of Selectmen, shall be disposed of at the Town Transfer Station/Recycling Facility.
- 4) It shall be unlawful for any person to deposit, dump, or leave solid waste in any privately owned or maintained disposal container other than their own, or upon any other private property, without the consent of the owner.
- 5) It shall be unlawful to deposit in any municipally owned or maintained disposal container, except those located at the Transfer Station/Recycling Facility, any solid waste other than that generated in a public building, grounds, highway, or on the person of anyone using said public buildings, grounds, or highways.
- 6) It shall be lawful to deposit, dump, dispose of, or allow the disposal of composting organic material if authorized by the Vermont Solid Waste Management Rules, provided no public nuisance is caused.

**ARTICLE IV  
UNACCEPTABLE SOLID WASTE MATERIALS**

The following solid waste materials will not be acceptable at the Town Transfer Station and Recycling Facility:

- 1) Harmful, Hazardous, or Toxic Substances, including but not limited to those defined by Vermont or Federal Statutes, Codes, or Regulations;
- 2) Septic Waste or Sludge as defined by Vermont Statutes;
- 3) Junk Motor Vehicles;
- 4) Yard Wastes;

- 5) Natural Wood;
- 6) Industrial Waste;
- 7) Construction/Demolition Debris;
- 8) Any material which, in the opinion of the authorized Town representative or facility attendant, constitutes a serious hazard to the other users of the facility, to the property of the Town, or the operation of the facility.

**ARTICLE V  
SUPERVISION**

- 1) The facility attendant shall have the right to refuse the use of the facility to any person, business, institution, or other user who is misusing the facility, or is violating this ordinance, or who does not have the proper permit.
- 2) Any person, business, institution, or other user who deposits unacceptable solid waste as defined in this ordinance or solid waste not collected and generated within the Town of Winhall, or such other towns as approved by the Board of Selectmen, shall be ordered to remove such materials from the Town facility by either the facility attendant or an authorized Town representative.
- 3) It shall be illegal to deposit, dump, or leave solid waste of any kind in the Transfer Station/Recycling Center, or adjacent thereto, except as directed by the facility attendant.

**ARTICLE VI  
COLLECTION OF FEES**

- 1) The Board of Selectmen may set fees for disposal of any solid waste at the Town facility. Method of payment of fees shall be determined by the Selectboard.
- 2) All permits shall be issued by the Town to a specific person, business, or institution. Each permit must be displayed to the facility attendant upon entrance to the Town facility. By accepting the permit, the holder of the permit agrees to pay all assessed fees and be bound by the conditions of this 'ORDINANCE.'

**ARTICLE VII  
EXEMPTION**

In special circumstances, any fees assessed under this ordinance may be waived or abated by the Board of Selectmen.

**ARTICLE VIII  
PENALTIES AND CIVIL ENFORCEMENT**

This ordinance is a civil ordinance and enforcement shall follow the procedures described in 24 V.S.A. Sec. 1974a including but not limited to:

- 1) For any violation(s) of this ordinance, the Town may suspend or revoke the permit of any person, business, institution, or other user to use the Town Transfer Station/Recycling Facility. Suspension or revocation shall be after notice, in writing, to the permittee of said suspension or revocation and the reasons therefore. The permittee, within fifteen (15) days after the date of said notice, may appeal said suspension or revocation to the Board of Selectmen in writing.
- 2) A civil penalty of not more than \$500.00 may be imposed for a violation of this ordinance. Each day the violation continues shall constitute a separate violation. Any Enforcement Official may require the violator to take action to abate the violation, to abate the hazards, or to restore the environment to the condition existing before the violation. The waiver fee shall be set at \$50.00 for the first offence, \$100.00 for the second offense within a six month period, and \$150.00 for subsequent offenses within a six month period.
- 3) Violations of this ordinance where the penalty is \$500.00 or less shall be brought before the traffic and municipal ordinance bureau. If the penalty for all continuing violations is greater than \$500.00, or injunctive relief, other than as provided in subsection (c) of 24 V.S.A. § 1974a, is sought, the action shall be brought in superior court.
- 4) The municipal ordinance bureau hearing officer, on application of the Town of Winhall may order that the ordinance violation cease.

NOTE:  
ARTICLE IX  
RESERVED

**ARTICLE X  
DESIGNATION OF ENFORCEMENT PERSONNEL**

For purposes of this ordinance, the Selectboard designates the following persons as enforcement officers: any member of the Selectboard, the Town Health Officer, Town Attorney, Constable, law enforcement officials, Town Agent, and the Facility Attendant.

The custodial official of the Town's ticket books shall be the Town Assistant to the Selectmen.

The issuing officials shall be the members of the board of selectmen, the town health officer the town constable, any police officers for the Town of Winhall, any Sheriffs acting for the Town of Winhall, town agent, and the facility attendant.

The appearing officials shall be the members of the board of selectmen, the Town grand juror, the Town agent, and the Town's attorneys.

**ARTICLE XI  
REPEAL OF INCONSISTENT PROVISIONS**

All ordinances or parts of ordinances, resolutions, regulations, or other documents inconsistent with the provisions of this ordinance are hereby repealed to the extent of such inconsistency.

**ARTICLE XII  
SEVERABILITY**

This ordinance and its various parts, sentences, sections and clauses are hereby declared to be severable. If any part, sentence, section, or clause is adjudged invalid, it is hereby provided that the remainder of this ordinance shall not be affected thereby.

**ARTICLE XIII  
PUBLICATION AND POSTING**

This Amended Ordinance shall be published in the ~~Brattleboro Reformer~~ <sup>VERMONT NEWS GUIDE</sup> on NOVEMBER 26 1996 and shall be filed with the Winhall Town Clerk on NOVEMBER 19 1996 and shall become effective on JANUARY 20 1997. A copy of this Ordinance is filed with the Winhall Town Clerk. A copy of this Ordinance may be obtained from the Winhall Town Clerk. The Selectmen of the Town of Winhall have knowledge of this Ordinance and are available to answer questions about it. This Ordinance adopted by the Selectmen of the Town of Winhall may be disapproved by a vote of a majority of the qualified voters of the Town of Winhall voting on the question at an annual or special town meeting duly warned for the purpose pursuant to a petition signed and submitted in accordance with the provisions of Title 24 V.S.A. Section 1973 relating to "Permissive Referendum."

ARTICLE XIV  
ADOPTION

Adopted by the Board of Selectmen of the Town of Winhall on  
Nov 18, 1976.
